

1 April 2010

METEOREX Exhibition of Meteorological Instruments, Related Equipment and Services

Dear Madam/Sir

We cordially invite you to visit our booth during the upcoming METEOREX Exhibition taking place in Helsinki, Finland, from 31st August to 2nd September 2010. The exhibition is organized in connection with two significant meteorological conferences, WMO-TECO and WMO-CIMO, which will all be conveniently held at the same location from 30th August to 8th September 2010.

Vaisala will be one of the main sponsors of the METEOREX exhibition, and we have the great pleasure of welcoming you to join us during that week.

In addition to being one of the main exhibitors, we are also organizing a visit to the Vaisala premises including a light dinner on Wednesday, 1st September. Bus transportation from the exhibition area will be arranged to make your way to the Vaisala reception effortless.

On Sunday, 5th September, we will also organize a visit to Heureka, The Finnish Science Center, where you will have the possibility of getting familiar with the Science On a Sphere – a global display system designed in the United States by the National Oceanic and Atmospheric Administration (NOAA). The system encompasses four video projectors that project animated images of the Earth's surface, oceans, atmosphere and astronomy onto the white surface of a large sphere.

We look forward to seeing you in Finland in September!

Best regards,

VAISALA OYJ
